# HEAD UP DISPLAY
Getting Started Guide

1. Unpack the HUD from the packaging and check you have all the components:
- 1 x Head Up Display - HUD
- 1 x Non-Slip Mounting Pad
- 1 x Reflection Film
- 1 x Mini USB to OBD-II Cable

2. Using the included cable, insert the mini USB end into the HUD and the OBD-II plug into your vehicle's OBD-II Port

Note: Consult with your car manufacturer if you don't know where your OBD-II port is

3. Carefully position HUD and non-slip mat on your dashboard. Ensure your dashboard and windscreen are clean, dry and free from any dust or residue

4. Start vehicle's engine – HUD Display will turn on

5. Place reflective screen on windscreen so the HUD display is clearly visible from the driver's seat

6. Drive Safely!
