1 HOW TO USE

1. Before installation, wipe down the back of your phone and the desired mounting surface, ensuring both are clean, dry, and free of dust or oil.
2. Apply one side of the silicone pad firmly to the back of your phone. With your phone attached, press the other side of the pad onto a clean, non-textured surface.
3. Press firmly and apply even pressure to the center of your phone to engage the suction cups.
4. Make sure your phone is locked securely in place before letting go completely. For best results, use only on smooth, flat, and dust-free surfaces.

To remove the suction pad from the phone, gently lift the pull tab upward to let air into the suction cups, breaking the vacuum seal effortlessly and safely.

NOTICE

- » For temporary mounting only. Not intended for permanent or extended use.

- » This product is designed for use on smooth, flat, clean, and dust-free surfaces only.
- » Holding performance may vary depending on surface type, device weight and environmental conditions.
