## **Warranty Details**

---

The product is guaranteed to be free from defects in workmanship and parts for a period of 12 months from the date of purchase. Defects that occur within this warranty period, under normal use and care, will be repaired, replaced or refunded at our discretion. The benefits conferred by this warranty are in addition to all rights and remedies in respect of the product that the consumer has under the Competition and Consumer Act 2010 and similar state and territory laws.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

# Welcome

Congratulations on choosing to buy a BAUHN® product. By doing so you now have the assurance and peace of mind that comes with purchasing a product made by one of the leading manufacturers. All products brought to you by BAUHN® are manufactured to the highest standards of performance and safety and, as part of our philosophy of customer service and satisfaction, are backed by our comprehensive 1 Year Warranty. We hope you will enjoy using your purchase for many years to come.

# General Safety Instructions

Read this manual thoroughly before first use and keep it in a safe place for future reference, along with the warranty card, purchase receipt and carton. The safety precautions enclosed herein reduce the risk of fire, electric shock and injury when correctly adhered to. Follow all instructions and take notice of all warnings to reduce the risk of fire or electric shock.

- Do not expose this product to water, rain, moisture or dust. Electronic products of this kind should never be subjected to moisture or extreme temperatures.
- Do not attempt to open the product housing. There are no user-serviceable parts inside this product.
- Do not repair the unit yourself. If your device is not functioning correctly, disconnect the product from power, and contact after sales support.
- Supervise young children to ensure they do not play with the product.
- Do not expose to chemicals, oils, or other liquids.
- Do not expose to naked flames or other heat sources.
- Do not drop or subject the device to undue shock.
- Keep device away from magnets at all times.
- Keep away from direct sunlight. Indoor use only.
- Unplug this device during lightning storms or when unused for long periods of time.

# Instructions

## Power On/Off

To use your Bauhn Cordless Headphones wirelessly, the base unit will require power. You can power the base unit using the included power adaptor or by inserting batteries. Refer to p 10 for details on using batteries with the unit.

1. Insert the jack of the power adaptor to the rear of the base unit.
2. Plug in the power adaptor to a mains outlet and switch the outlet on.
3. Move the switch on the back of the base unit to channel 1, 2 or 3
4. The LED on the front of the base unit will turn green when connected to power (or red when charging the headphones).

## Charging

The Bauhn Cordless Headphones have a built-in rechargeable battery. The base unit will recharge the headphones when they are docked.

1. Insert the plug of the power adaptor to the rear of the base unit.
2. Plug in the power adaptor to a mains outlet. Turn the power on at the mains outlet.
3. The power LED on the front of the base unit will turn green when connected to power.
4. Place the headphones on the cradle. Ensure the contacts on the base unit and the headphones line up.
5. The power LED on the front of the base unit will change to red while the headphones are charging.
6. When fully charged, the power LED will return to green.

**Note:** *You can only recharge your headphones while connected to mains power.*

## Connecting to your Audio Device

You can connect any audio device to the Bauhn Cordless Headphones and listen in comfort from anywhere in the home. You could also connect the Cordless Headphones to your TV to listen without disturbing others. You can connect your base unit using the included 3.5mm cable or the included RCA adaptor.

### Wireless

Connect your TV, phone, Stereo or other audio device to your base unit using the included 3.5mm cable. The base unit will transmit the audio wirelessly to your headphones.

1. Connect the included audio cable to the rear of the base unit. Plug the cable into the jack marked audio in.
2. The audio LED on the front of the base unit will turn blue when it detects audio input.
3. Select the channel you wish to use for your Cordless Headphones. The switch used to toggle between channels 1 to 3 is found on the rear of the base unit.
4. Switch on the headphones by selecting ON or BATT on the left ear pad.
5. Ensure "AUDIO" is selected on the right ear pad.
6. Press the Scan button on the side of the right ear pad to scan for the channel you selected. You may need to press scan a few times to tune to the correct channel.
7. Adjust volume to desired level using the VOL + and VOL - Buttons.

### Wired Connection

The included 3.5mm audio cable is perfect for connecting to your phone or other Mp3 player using a 3.5mm plug/jack directly to your headphones.

1. Connect the included audio cable to the 3.5mm jack marked AUX-IN on the right ear pad and the other end to your audio device.
2. Control audio play back on your device.

**Note: Connecting the audio cable to the AUX-IN jack will override any wireless or radio transmission.**

Internet: [www.winplus.com.au](http://www.winplus.com.au)

## **RCA connection**

This adaptor is perfect for connecting to devices with a stereo output such as a home audio system or your TV.

1. Connect the included RCA adaptor to one end of the included 3.5mm cable.
2. Connect the other end of the 3.5mm cable to the rear of the base station marked audio in.
3. Connect the red/white RCA plugs into the device you wish to connect to. On your TV the audio output plugs can be generally found on the back or side and will be marked using red and white plugs.
4. Select the correct output on your device. The LED on the front of the base unit will turn blue when it detects audio input.
5. Switch on the headphones by selecting ON or BATT on the left ear pad.

## **Inserting batteries**

You can insert 3 x AAA batteries (not included) into the base unit and 2 x AAA batteries (not included) into the headphones to use the Bauhn Cordless Headphones on the go.

### ***Base unit***

1. Open the battery cover on the bottom of the base unit.
2. Insert 3 x AAA batteries (not included) into the battery compartment. Take note of the polarity markings of the batteries.
3. Replace the battery cover on the base unit

### ***Headphones***

1. Open the battery cover on the left ear pad by turning the battery cover in the direction indicated to open.
2. Insert 2 x AAA batteries (not included) into the battery compartment. Take note of the polarity markings of the batteries.
3. Replace the battery cover on the base unit.
4. You can power the headphones using AAA batteries by selecting BATT on the left ear pad.

**Tip: When you replace the batteries as required, replace all the batteries at the same time. Do not mix old and new batteries.**

## **Pairing the Headphones to the Base**

The Bauhn Cordless Headphones feature 3 different channels, this way you can operate up to 3 different Cordless Headphone units at the same time without interference.

1. When the base unit is powered by either batteries or directly connected to mains power, switch on the headphones by selecting ON or BATT on the ear pad.
2. Connect the base unit to your audio device using the included cables. The LED on the front of the base unit will turn blue when it detects audio input.
3. Select the channel you wish to use for your Cordless Headphones. The switch used to toggle between channels 1 to 3 is found on the rear of the base unit.
4. Ensure "AUDIO" is selected on the right ear pad.
5. Press the Scan button on the side of the right ear pad to scan for the channel you selected. You may need to press scan a few times to correctly tune to the correct channel.

## **FM Radio**

The Bauhn Cordless Headphones include a built-in FM radio function.

1. Switch on the headphones by selecting ON or BATT on the left ear pad.
2. Select FM mode on the right ear pad.
3. Press the SCAN button to cycle between available radio stations.
4. You may need to press SCAN a few times to find the station you wish to listen to.
5. Adjust volume to desired level using the VOL + and VOL - Buttons.

# Frequently Asked Questions

Question	Answer
No power on charging dock	<ul style="list-style-type: none"><li>- Ensure the power adaptor is plugged into the base unit and switched on at the wall outlet.</li><li>- If you have inserted batteries, try replacing the batteries in case they are flat.</li><li>- If you have inserted batteries, check the correct polarity has been used.</li></ul>
No power on headphones	<ul style="list-style-type: none"><li>- Ensure the headphones are in ON mode.</li><li>- Try charging the headphones for 1hr to ensure sufficient charge for the built in battery</li><li>- If you have inserted batteries, try replacing the batteries in case they are flat.</li></ul>
Excessive interference or noise	<ul style="list-style-type: none"><li>- Try switching wireless channels by selecting 1, 2 or 3 on the base station.</li><li>- Press SCAN to select the new channel.</li><li>- Move the base unit away from any cordless phones or wireless devices</li><li>- Remove any obstacles between the headphones and base unit.</li></ul>
Volume buttons do not work when the headphones are connected directly to my audio device.	<ul style="list-style-type: none"><li>- When the headphones are connected directly to your audio device they act as passive wired headphones only. Change the volume levels on your audio device to adjust the volume.</li></ul>

# Frequently Asked Questions

Question	Answer
How long do I need to recharge the headphones?	<ul style="list-style-type: none"><li>- On the first charge, it is recommended you charge for a full 12 hours. On subsequent charges, charge at least a few hours to achieve full charge. You cannot over-charge your headphones when using them with the supplied charging cradle.</li><li>- When the POWER light turns green the headphones will be fully charged</li></ul>
How far away from the base unit will the headphones work?	<ul style="list-style-type: none"><li>- With no obstructions and no devices nearby the headphones will work up to 50m away</li><li>- Walls, doors and other electrical devices will limit the operating distance. Try positioning the charging dock in different locations for best results</li></ul>
The blue LED does not light up when I have my MP3 player or phone connected.	<ul style="list-style-type: none"><li>- Ensure the volume on your device is set to maximum.</li></ul>

# Repair and Refurbished Goods or Parts Notice

Unfortunately, from time to time, faulty products are manufactured which need to be returned to the Supplier for repair.

Please be aware that if your product is capable of retaining user-generated data (such as files stored on a computer hard drive, telephone numbers stored on a mobile telephone, songs stored on a portable media player, games saved on a games console or files stored on a USB memory stick) during the process of repair, some or all of your stored data may be lost. We recommend you save this data elsewhere prior to sending the product for repair.

You should also be aware that rather than repairing goods, we may replace them with refurbished goods of the same type or use refurbished parts in the repair process.

Please be assured though, refurbished parts or replacements are only used where they meet ALDI's stringent quality specifications.

If at any time you feel your repair is being handled unsatisfactorily, you may escalate your complaint. Please telephone us on 1300 663 907 or write to us at:

WINPLUS AUSTRALASIA
