

# NOISE CANCELLING HEADPHONES

## GETTING STARTED GUIDE

### 1. UNPACK

Unpack your Bauhn Noise Cancelling Headphones from the packaging and check you have all of the components:

- 1x Bauhn Noise Cancelling Headphones
- 1x 3.5mm Audio Cable
- 1x Micro USB Cable
- 1x Travel Case
- 1x 3.5mm Airline Adaptor
- 1x Instruction Manual (Not shown)
- 1x Getting Started Guide (Not shown)
- 1x Warranty Card (Not shown)

### 2. CHARGE YOUR HEADPHONES

Before first use, it is recommended you charge your headphones for 2 hours. Connect the USB Charging Cable to the port on the bottom of the right ear cup using the included Micro USB cable. Connect the other end to a spare USB port on your laptop or computer.

### 3. CONNECT THE 3.5MM AUDIO JACK

Insert the 3.5mm Audio Cable into the port on the bottom of the left ear cup. Insert the other end of the cable into your audio device.

### 4. START AUDIO PLAYBACK

Start audio playback on your audio device.

### 5. TURNING ON/OFF NOISE CANCELLING

Use the ON/OFF button on the back of the left ear cup to activate and deactivate the noise cancelling feature. Slide the switch upwards to activate. Once activated, the LED on the bottom of the ear cup will turn blue.
