

# Using the Phone Magnifier

HE200209  
Product Code: 704060  
12/2021

1. Open the Phone Magnifier so that the clear screen is still folded over the middle section
2. Using the section with the pre-folded creases, fold the central line up and create an L shape at one end

3. Then push the middle sections together until the magnets connect
4. Flip the clear part over, you should now have access to the middle section
5. Push on each end of the pre-cut section down creating a upside down "U" as shown below
6. This will be used as the feet for your Phone Magnifier

7. Move the middle tab towards the clear screen and move the screen towards the tab. There is a pre created slot that the tab sits in on the screen
8. Rest your phone against the folded section and enjoy your larger phone screen

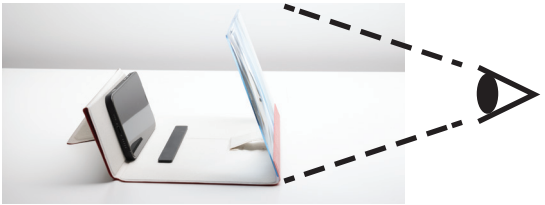

**Middle tab**

# Using the Phone Magnifier

HE200209  
Product Code: 704060  
12/2021

Please note: The rubber strip is designed to help you create different viewing angles depending on how you are using the phone magnifier. If the phone magnifier is at your eye level, we recommend that you place your phone so that it leans directly against the back of the magnifier. This will provide the best magnification results and utilise the whole screen.

If you are at a higher angle than the phone magnifier (such as sitting at a table), we recommend that you place your phone on an angle, so that the bottom edge is touching the rubber strip and the top of your phone is touching the back of the phone magnifier. This method will reduce the size of magnification slightly.

We also recommend using the pre-cut 'feet' to push the base up

## Warning

- Clean the screen without damaging it by not using abrasive liquids.
- Do not expose the product to extreme heat and direct sunlight.
- Do not use it for a prolonged period of time as it may damage your eyesight.
- This product is not a toy, keep out of reach of children.
- Discard if the screen is damaged.
- Keep a minimum distance of 40cm between your eyes and the screen while using it.
- Contact customer support if you have any enquiries regarding this product.
